HR INFORMATION SYSTEMS • PEOPLE ANALYTICS • HR DIGITAL TRANSFORMATION

Lagos, Nigeria

| adedotundaniel244@gmail.com | [LinkedIn](#)

PROFESSIONAL PROFILE

HR Information Systems and people analytics professional with over four years' experience owning HR master data, systems administration and workforce reporting across a nine-entity financial services group. Currently lead the HRIS function at Leadway, administering HR technology and employee databases for six operating companies, driving user acceptance testing and module rollout on an enterprise HR platform, and delivering Power BI dashboards that have reduced manual reporting turnaround by more than 60%.

Trusted by HR leadership and the Board for executive reporting that informs compensation strategy, workforce planning and people-risk monitoring. Combines hands-on enterprise HR systems ownership with formal analytics credentials — MSc Data Science candidate (Rome Business School), Diploma in Data Science (AltSchool Africa) and Certified People Analytics Specialist (AIHR).

Focused on data governance, automation and self-service reporting that shift HR from manual extraction to decision-ready information and on building the data discipline, documentation and user adoption that make it stick.

CORE COMPETENCIES

HR Information Systems: HRIS administration and configuration • Employee master data management • Organisational structure, positions, grades and reporting lines • System parameters and workflows • User acceptance testing (UAT) and pilot execution • Module rollout and go-live support • Vendor and implementation-partner management • First-level HRIS support and issue tracking

Data Analytics & Business Intelligence: Microsoft Power BI • Microsoft Fabric • Tableau • Advanced Microsoft Excel • Power Query • SQL • Dashboard design and self-service reporting • Workforce analytics (headcount, turnover, movements, grade and location distribution) • KPI and HR metrics development • Executive and Board reporting

Data Governance & Integrity: HR data cleansing, validation and reconciliation • Exception reporting and correction tracking • Data quality controls • Audit trail and change documentation • Access control and confidentiality of employee information • Process documentation and reporting standards

Data Science & AI: Python • Data cleaning and transformation • Statistical analysis • Data storytelling and visualization • Applied AI and machine learning concepts for HR (MSc coursework)

HR Operations: Compensation and benefits analysis • Performance management administration • Employee engagement survey administration • Employee lifecycle and movement data • Pay structure and pay-for-performance modelling • HR policy frameworks

Project & Process Improvement: Business analysis (CBAP®/CCBA® trained) • Requirements gathering • Process mapping and digitization • Automation of manual reporting • Change enablement, user training and adoption • Documentation, user guides and SOPs

Leadership & Stakeholder Management: HRIS team leadership • Cross-functional collaboration with HR, IT, Finance and OD • HR business partnering • Influencing data discipline across multiple entities and locations • Executive stakeholder engagement • Mentoring and capability building

PROFESSIONAL EXPERIENCE

LEADWAY GROUP — Lagos, Nigeria

HRIS Analyst — Lead, HR Information Systems

Feb 2023 – Present

Lead the HRIS team responsible for HR technology and employee databases across six operating companies — Leadway Assurance, Leadway Capital & Trust, Leadway Hotels, Leadway Properties & Investments, Leadway Assets Management and Leadway Health — with reporting and system support extending across nine group entities.

- Designed and built the Group's automated HR reporting suite in Power BI, Microsoft Fabric and Excel in collaboration with the data management team, cutting manual reporting turnaround by over 60% and giving HR leadership headcount, movement and workforce cost data on demand rather than on request.
- Deliver executive-ready analysis and reporting relied on by HR leadership and the Board to shape compensation strategy, workforce planning and people-risk monitoring.
- Led user acceptance testing and pilot execution across all modules of the NotchHR platform in partnership with the ATB implementation team, driving cleaner rollouts and measurably higher system adoption across nine entities.
- Ran the 2024 performance assessment cycle on the newly deployed NotchHR platform for five Leadway entities, delivering a smooth assessment cycle and a significant lift in user adoption of the performance management module.
- Administer employee master data across the Group, extracting, transforming and validating records through HRIS platforms to keep reporting accurate, consistent and decision-ready.
- Supported the Organisational Development unit through the Great Place to Work certification process, providing the HR data analysis behind successful certification for five-plus Group entities (2025 and 2026).
- Administered the Group employee engagement survey (2024, 2025 and 2026), achieving a 70%+ response rate and a 90% engagement score across the Group.
- Identified cost-saving and process-optimisation opportunities through HR data analysis, translating findings into practical recommendations for HR and business leaders.
- Partner with HR leaders across talent acquisition, retention and engagement to embed data into people decisions; provide first-level HRIS support and end-user training that has raised data discipline and self-sufficiency across HR teams.

KUNBI ADEOTI CONSULTING & MENTORSHIP ACADEMY — Lagos, Nigeria

HR Advisory Consultant (Voluntary)

2024 – Present

- Develop HR frameworks for client organisations, including pay structure models, pay-for-performance models and the supporting policy documentation.
- Conduct peer-to-peer compensation benchmarking to underpin equitable and competitive pay decisions.
- Contribute to strategic planning sessions with client leadership, aligning people practices with business objectives.
- Coordinate the monthly mentorship programme end to end — scheduling, content distribution and mentee engagement across each cohort — working alongside the consulting team to deliver tailored HR advisory services.

LEADWAY GROUP — Lagos, Nigeria

Customer Experience Data Analyst (Contract)

2022 – Jan 2023

Managed the customer experience database for three Group companies — Leadway Assurance, Leadway Health and Leadway Trustees.

- Built and maintained Power BI dashboards and Excel reporting to track NPS, CSAT, CLV, CES and SLA adherence, giving CX leadership a single view of service performance.
- Conducted root cause analysis on complaint and churn metrics, supporting initiatives that delivered a measurable reduction in customer attrition and an increase in net promoter score across three entities.
- Analysed structured and unstructured customer interaction data with CX teams to pinpoint trends and pain points in customer journeys.
- Presented data-driven recommendations to leadership that informed service process improvements.

LEADWAY GROUP — Lagos, Nigeria

Finance Trainee

May 2017 – Aug 2017

- Processed insurance premium and internal payments (rent, commissions) accurately across multiple channels.
- Reconciled bank statements and resolved financial discrepancies in collaboration with the finance team.
- Maintained compliant records of all financial transactions, including premium and claim payments.

EDUCATION

MSc, Data Science — Rome Business School In Progress

Diploma, Data Science — AltSchool Africa May 2026

Postgraduate and diploma study in data science directly strengthen my HR analytics practice — statistical analysis, data engineering, business intelligence and applied AI — and underpin the workforce forecasting, predictive attrition analysis and automated HR reporting I build for the business.

HND, Accounting — Federal Polytechnic Ede, Osun State Oct 2021
